## TOOL BAGS AND BOXES

The **semi-rigid tool bag** is an **original creation** from **Outils Océans**. It's the ultimate solution mixing box and bag. Developed from an original design combining flexibility and rigidity thanks to complementary materials, the tool bags and satchels feature a **semi-rigid U-shaped frame** with shape memory. This ensures **waterproofing**, better equipment **protection**, and **long-lasting durability**. The entire range is now made with a **single-material fabric** (polypropylene) that is **100% recyclable**.

### Small repair tool bags and plumber's bag

The CO1 bag is designed for all small maintenance professionals. Designed to carry a selection of tools, it has a wide opening for direct access to the tools. It is also compact and lightweight.

**Reference :** CO1

**GTIN codes :** 3701133102209 black  
3701133100021 red

**Dimensions :** L38 x H15 x Th 15 cm

**Packing :** carton of 12 pieces

#### Features :

- closure by flap and adjustable clasps, reflective tape SOLAS,
- 1 large compartment for tools,
- 1 central ergonomic handle,
- 2 side handles,
- 1 shoulder carrying strap,
- 1 label holder.

#### Material :

- body in polyethylene thermoformed frame 1.8 mm thickness,
- gusset and flap in double sided PP coated polypropylene fabric,
- handles, shoulder strap and binding in polypropylene weaving,
- overmolded handle in polyethylene,
- brass rivets,
- injected polyamide clasps.

**Empty unit weight :** 0,45 Kg

**Colors :** black, red

**HS code :** 42 02 92 19 00

**MADE IN FRANCE**

The CO501515 plumbers and gas professionals bag can store a torque wrench.

**Reference :** CO501515

**GTIN code :** 3701133101981

**Dimensions :** L50 x H15 x Th. 15 cm

**Packing :** carton of 12 pieces

#### Features :

- closure by flap and adjustable clasps, reflective tape SOLAS,
- 1 large compartment for tools,
- reinforced gussets with 2 side flaps,
- 1 central ergonomic handle,
- 2 side handles,
- 1 shoulder carrying strap,
- 1 label holder.

#### Material :

- body in polyethylene thermoformed frame 1.8 mm thickness,
- gussets reinforcement in polyethylene plate 1.8 mm thickness,
- gusset and flap in double sided PP coated polypropylene fabric,
- handles, shoulder strap and binding in polypropylene weaving,
- overmolded handle in polyethylene,
- brass rivets,
- injected polyamide clasps.

**Empty unit weight :** 0,70 Kg

**Color :** black

**HS code :** 42 02 92 19 00

**MADE IN FRANCE**

#### Tool bags for mobile maintenance

The CO2 tool bag offers a **panoramic view** of all your hand tools and portable power tools. **Large and robust**, it adapts to the specific needs of your profession thanks to two compartments separated by a partition equipped with cartridge belts and bungee cords.

**Reference :** CO2  
**GTIN code :** 3701133100199  
**Dimensions :** L45 x H24 x Th. 26 cm  
**Packing :** carton of 8 pieces

#### Features :

- closure by flap and adjustable clasps, reflective tape SOLAS,
- 2 compartments for tools,
- 1 central partition with 10 cartridge belts at the front and bungee cord at the back,
- 1 large flat pocket at the back for documents,
- 2 side compartments for measuring devices,
- 2 side handles,
- 1 shoulder strap,
- 1 sheath at the rear for sliding onto a trolley,
- 1 label holder.

#### Material :

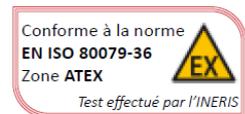

- body in polyethylene thermoformed frame 1.8 mm thickness,
- gusset, flap and partition in double sided PP coated polypropylene fabric,
- handles, shoulder strap and binding in polypropylene weaving,
- overmolded handle in polyethylene,
- brass rivets,
- injected polyamide clasps.

**Empty unit weight :** 1,30 Kg.

**Color :** black

**HS Code :** 42 02 92 19 00

**MADE IN FRANCE**

The CO3 tool bag is designed for **small maintenance jobs**. It offers a variety of features to accommodate tools, documentation, and electrical or electronic accessories.

**Reference :** CO3  
**GTIN codes :** 3701133102292 black  
3701133100083 red  
**Dimensions :** L35 x H20 x Th. 10 cm  
**Packing :** carton of 8 pieces

#### Features :

- closure by flap and velcro, reflective tape SOLAS,
- 1 central compartment for tools,
- 1 partition with 5 cartridge belts, 1 pocket at the front, 1 pocket at the rear,
- 1 front pocket with gusset and closure by press stud,
- 2 side external pockets with flap and velcro,
- 1 central ergonomic handle,
- 1 adjustable and removable shoulder strap,
- 1 label holder.

#### Material :

- body in polyethylene thermoformed frame 1.8 mm thickness,
- gusset and flap in double sided PP coated polypropylene fabric,
- handle, shoulder strap and binding in polypropylene weaving,
- overmolded handle in polyethylene,
- brass rivets,
- injected polyamide clasps.

**Empty unit weight :** 0,75 Kg.

**Colors :** black, red

**HS code :** 42 02 92 19 00

### Large organized storage for electricians

The large, **organized** CO6 storage compartment allows you to carry a **wide range of equipment** for installation, maintenance, on-site troubleshooting professionals, and especially electricians. The textile cartridge holders **protect the insulating sheaths of your live-line work tools**, thus extending their lifespan.

#### Features :

- closure by flap and adjustable clasps, reflective tape SOLAS,
- 1 mesh flat poche for documents or gloves under the flap,
- 1 compartment for large tools / power tools with 2 lateral pouches,
- 1 central partition with 14 cartridge belts at the front and suspended flat poche at the back for documentation, partition removable with quick system (plastic "mushrooms" and locking slats),
- 1 tool storage tray with 4 small cartridge belts in the center, 3 large cartridge belts on the sides, opening at the front with side clasps,
- 2 side compartments for measuring devices,
- 1 central ergonomic handle,
- 1 shoulder strap adjustable and removable by clasps,
- 1 label holder.

#### Material :

- body in polyethylene thermoformed frame 1.8 mm thickness,
- gusset, flap and cartridge belts in double sided PP coated polypropylene fabric,
- flat poche under the flap in PVC coated polyester mesh,
- reinforcement of the partition made with an acrylic rod in a sheath,
- handle, shoulder strap and binding in polypropylene weaving,
- overmolded handle in polyethylene,
- brass rivets,
- injected polyamide clasps.

**Empty unit weight** : 1,80 Kg.

**Maximum load** : 25 Kg

**Colors** : black

**HS code** : 42 02 92 19 00

**MADE IN FRANCE**

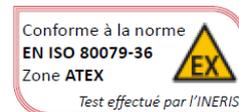

**Reference** : CO6

**GTIN code** : 3701133102223

**Dimensions** : L40 x H28 x Th. 17 cm

**Volume** : 19 L

**Packing** : carton of 6 pieces

**For your specific needs,  
ask our experts for advice.**

#### Organized tool trolley

For your **construction sites, maintenance and on-site installation**, the Outils Océans textile and semi-rigid trolley offers you **maximum storage with minimum weight**. The lower part is a large storage unit on wheels equipped with 2 compartments: 1 compartment with cartridge belts for hand tools and a compartment for power tools and large equipment. The CO2 tool bag slides along the rod of the trolley to provide modularity during interventions. Even with the CO2 tool bag positioned above, you can access the tools by opening and tilting the front of the storage unit

#### Features :

- closure by flap and adjustable clasps, reflective tape SOLAS,
- 1 mesh flat poche for documents or gloves under the flap,
- 1 large compartment for power tools or large equipment with 2 large side pouches for measuring devices,
- 1 central rigid partition with 9 cartridge belts at the front and bungee cords at the back,
- front opening with 2 clasps and tilting to give access to a tray of 13 cartridge belts,
- integrated trolley with retractable double rod,
- the trolley rod can accommodate a second CO2 type bag which is held in place by a sheath and rests on the main storage unit.

#### Material :

- body in polyethylene thermoformed frame 1.8 mm thickness,
- gusset, flap and cartridge belts in double sided PP coated polypropylene fabric 100% recyclable,
- documentation poche in PVC coated polyester mesh,
- reinforcement of the partition made with an acrylic rod in a sheath,
- handle, shoulder strap and binding in polypropylene weaving,
- overmolded handle in polyethylene,
- brass rivets,
- injected polyamide clasps

**Empty unit weight** : 3,7 Kg.

**Color** : black

**HS code** : 42 02 92 19 00

**MADE IN FRANCE**

**Reference** : CO453626,RL

**GTIN code** : 3701133100205

**Dimensions** : L45 x H36 x Th. 26 cm

**Volume** : 42 L

**Packing** : carton of 2 pieces

**For your specific needs,  
ask our experts for advice.**

#### Tool bag for working at height

The result of 20 years of feedback, the CO252211 bag offers you all the safety guarantees for your operations carried out at height.

#### Features :

- 1 rigid central compartment for tool storage
- 1 front pocket with flap and hook-and-loop fastener
- 2 open side pockets
- 2 side handles for carrying by hand, used to attach tool lanyards
- 3 carrying options with hook-and-loop fastening system: on a belt, over the shoulder, or on a harness
- 6 cartridge holders
- 2 holes for attaching harness hooks to the bag

#### Material :

- Semi-rigid body made of 18/10 polyethylene (black)
- Pockets made of PVC-coated polyester on both sides (black)

**Empty unit weight :** 0,56 Kg.

**Color :** black

**HS code :** 42 02 92 19 00

**MADE IN FRANCE**

**Reference:** CO252211

**GTIN code:** 3701133102414

**Dimensions:** L25 x H22 x Th. 11 cm

**Packing:** box of 8 pieces

#### Tool bucket for working at height

A hanging bucket designed for working at height and transporting live-line tools for safe working. Its square shape provides great stability.

#### Features :

- 1 central compartment reinforced on 4 sides and bottom,
- 15 cartridge belts around the inner periphery,
- 1 long handle and a loop for bucket suspension,
- reflective tape on 4 sides,
- 5 drain holes,
- 1 label holder.

#### Material :

- interior body in polyethylene plate 1.8 mm thickness,
- exterior and cartridge belts in double sided PP coated polypropylene fabric 100% recyclable,
- handle and binding in polypropylene weaving.

**Empty unit weight :** 0,85 Kg.

**Color :** black

**HS code :** 42 02 92 19 00

**MADE IN FRANCE**

**Reference :** SO252825

**GTIN code :** 3701133101790

**Dimensions :** L25 x H28 x Th. 25 cm

**Packing :** carton of 8 pieces

### MIXED TOOL AND PPE STORAGE

#### Tool belts

#### Features :

- 1 closure by zip on 3 sides,
- 1 rigid tool shelf,
- 1 sheath at the back for belt (COT211105 et COT261105),
- 1 belt strap with clasp removable (COT21105/COT261105) or fixed (COT301606),
- 1 label holder.

#### Material :

- body in double sided PVC coated polyester,
- rigid shelf in polyethylene plate 1.8 mm thickness,
- nylon zip,
- belt and binding in polypropylene weaving,
- injected polyamide clasps.

**Empty unit weight :** 0,23 Kg COT21105, 0,27Kg COT261105 et 0,31 Kg COT301606.

**Color :** navy blue

**HS code :** 42 02 92 19 00

**Dimensions :** L14 x H28 x Th. 07 cm

**Packing :** carton of 6 pieces

### Modular tool and PPE backpack

Designed for mobile **maintenance** technicians, this custom-designed bag adapts to the specific needs of your job. Thanks to its options, it can **store PPE (helmet, gloves, insulating mat)** as well as **hand tools, small power tools, and measuring devices**.

Its size allows access to caged ladders.

**Reference :** SD324516, 1C  
**GTIN code :** 3701133100373  
**Dimensions :** L32 x H45 x Th. 16 cm  
**Capacity :** 23L

#### Options :

Poches latérales

**Reference :** PCO

Poche carcan ouverte

**Reference :** PCF

Poche carcan fermée

**Reference :** PL

Poche large

Additional partitions (2 maximum)

**Reference :** CL

#### Features :

- 1 central compartment closed by flap, zip and 2 zipper pullers,
- 1 pivoting partition with front and back tool cartridge belts, with elasticated strap,
- 1 mesh pocket closed by zipper at the bottom,
- Foam-line back
- 1 name tag with external loading on the top,
- 1 ergonomic top carry handle,
- 2 adjustable back straps with foam reinforcement,
- 1 patch pocket with zipper closure,
- 1 helmet pocket with drawstring, D-rings, and tightening hooks,
- 2 reflective strips.

#### Material :

- reinforcement, body, partition in polyethylene plate 1.8 mm thickness,
- gusset and flap in double sided PVC coated polyester fabric,
- interior foam in polyurethane 12 mm,
- Foam-lined shoulder straps,
- handle and binding in polypropylene weaving,
- nylon zip,
- nickel-plated brass eyelets,
- Stainless steel hardware.

**Empty unit weight :** 1,65 Kg

**Color :** black

**HS code :** 42 02 92 11 00

### Sac à dos outils modulaire

Designed for mobile maintenance technicians, this backpack is tailored to the specific needs of your maintenance work.

Thanks to its various features, it allows you to store your hand tools, small power tools, and measuring instruments. Its size allows access to caged ladders.

**Reference :** SD344520,2C  
**GTIN code :** 3701133102421

**Volume :** 30L

**Options :**  
 Lateral pockets  
**Reference :** PCO  
 Open pocket  
**Reference :** PCF  
 Closed pocket  
**Reference :** PL  
 Large closed pocket

#### Outside features:

- 1 central compartment closed by flap with zip and 2 pullers,
- 2 flap retention straps,
- 2 front pockets with gusset closed by zip,
- 1 label holder,
- 2 side mesh pockets,
- 1 ergonomic handle,
- Padded shoulder straps,
- Foam back reinforcements,
- sleeve on the back for trolley,
- Side attachment loops
- reflective bands.

#### Inside features :

- Reinforced base and sides for natural upright positioning,
  - 1 partition with 21 cartridge belts,
  - 1 lateral partition with 1 compartment,
  - 1 lateral partition with 2 compartments,
- Inside the flap:
- 1 storage compartment for a laptop/tablet,
  - 6 cartridge belts,
  - 1 flat transparent pocket.

#### Material :

- body and partitions in polyethylene 1.8 mm thickness (BLACK),
- gusset and flap in double sided PVC coated polyester,
- foam polyurethane 12 mm,
- handle and binding en polypropylene weaving,
- nylon zip,
- nickel-plated brass eyelets.

**Unit empty weight :** 3.3 Kg

Removable trolley

## PPE DUFFEL BAGS

Our concept is based on functional features that promote equipment protection and longevity. The carrying system is adapted to the use and work environment to prevent MSDs.

Your Outils Océans PPE bag empowers users.

### Soft duffel bag

Your **essential kit** for taking care of all your PPE. **Robust and waterproof**. It offers a large loading volume and quick access to its contents.

**Reference :** SC703030  
**GTIN codes :** 3701133100311 bleu  
 3701133102278 noir  
**Dimensions :** L70 x H30 x Th. 30 cm  
**Capacity :** 63L  
**Packing :** carton of 10 pieces

#### Features :

- large compartment closed by 2 zips and grip cord joining the 2 zipper pullers and Velcro flap,
- 1 flat pocket on 1 side closed by zip,
- 1 label holder outside opening with press stub,
- 2 carrying handles,
- reflective strips SOLAS on 4 sides.

#### Material :

- body in PVC coated polyester,
- reinforced bottom in double sided PVC coated polyester,
- handles in polypropylene weaving,
- nylon zip,
- grip cord in polyethylene.

**Empty unit weight :** 0,55 Kg.

**Colors :** blue, black

**HS code :** 42 02 92 19 00

### Soft & organized PPE Bags

Soft **Organized PPE Bags** are designed to contain, protect and transport a large volume of clothing and materials in dedicated compartments to **be preserved** to ensure **complete safety**.

**References :** SC602838,1C  
 SC803242,1C  
**GTIN codes :** 3701133100304  
 3701133100328  
**Dimensions :** L60 x H28 x Th. 38 cm  
 L80 x H32 x Th. 42 cm  
**Capacity :** 64L / 107L  
**Packing :** carton of 6 pieces

#### Features :

- 1 central compartment closed by zip on 3 sides and 2 zipper pullers,
- 1 flat hanging pocket in the central compartment for documents,
- 1 adjustable and removable partition with Velcro,
- 1 flat pocket closed by zipper on the small exterior side,
- 2 large side pockets with gusset closed by zip,
- 2 adjustable retaining straps on the top of the bag for insulating mat, rain gear, other bag, etc.,
- reinforced bottom with 6 protective spiked feet,
- 1 label holder outside opening with press stub,
- 2 handles,
- 1 adjustable and detachable carrying handle with straps,
- micro-bead reflective strips on the top and side pockets,
- 2 buckles and clasps for attachment to trolley.

#### Material :

- body in PVC coated polyester fabric,
- bottom in double sided PVC coated polyester fabric,
- reinforcement and partition in polyethylene 1.8 mm thickness,
- binding, handles and shoulder strap in polypropylene weaving,
- nylon zipper chain (8mm), metal zipper puller with pull cord.

**Empty unit weight :** 1,7Kg / 2,2 Kg.

**Color :** black

**HS code :** 42 02 92 19 00

#### Organised PPE bag with fixed trolley

Rolling bag for transporting and protecting all your PPE in a single bag: helmet, gloves, insulating mat, shoes, harness, workwear, etc. The SC803242,RL combines the storage capacity and protection of a flexible PPE bag with the comfort and ease of transport provided by its wheels. The wheels deliver full satisfaction, even with intensive use. Its reinforced frame gives the rolling bag great stability and protection. An organized bag helps reduce losses and thefts, and lowers the risk of accidents by promoting compliance with safety instructions.

#### Features

- 1 central compartment with zip closure on 3 sides and 2 sliders,
- 1 flat pocket suspended in the central compartment for documents,
- 1 adjustable and removable divider with Velcro, size 32 x 42 cm with fastening
- 1 patch pocket with zip closure on the small outer side,
- 1 large pocket on one side and 2 pockets on the other with zip closure and 2 sliders
- 2 adjustable straps on the top of the bag for insulating mats, rainwear, other bags, etc.,
- reinforced tarpaulin base,
- 1 name tag with press stud on the outside,
- 2 adjustable carrying handles with sliders for carrying by hand or on your back
- microbead reflective strips on the top and pockets
- 1 adjustable shoulder strap with shoulder pad
- Microbead reflective strips on the top and side pockets
- 1 trolley with retractable handle and release button

#### Materials

- Body made of polyamide coated with PVC on one side (black)
- Removable partition made of polypropylene and Velcro
- Base made of polyester coated with PVC on both sides (black)
- Internal base reinforcement made of 18/10 polyethylene (black)
- Polypropylene strap edging, handles and shoulder strap
- Injected mesh zip (8 mm)
- Plastic slider with zip pull

**Weight (empty):** 4 Kg.

**Color:** black

**HS Code :** 42 02 92 19 00

**Reference:** SC803242,TR

**GTIN code:** 3701133100342

**Dimensions:** L80 x H32 x Th 42 cm

**Capacity:** 107L

**Packing:** box of 4

#### Semi-rigid organized PPE bags

The semi-rigid organized PPE bags, thanks to their **shape memory frame**, meet a demand for **reinforced protection**, for example for heavy equipment, for diving equipment, for the construction environment, etc.

##### Features :

- 1 large compartment closed by U-shaped zip and 2 pullers,
- 1 kangaroo pocket closed by zip with grip tab,
- 1 flat pocket closed by zip,
- 1 label holder outside opening with press stud,
- protection feet,
- reflective strips on 2 sides and above flap,
- 2 buckles and clasps for attachment to trolley.

##### Material :

- body in polypropylene 1.2 mm thickness (GRAY),
- gusset and flap in PVC coated polyester fabric (BLUE),
- nylon zipper chain (8mm), metal zipper puller.

**Empty unit weight :** 1,20 Kg.

**Color :** blue

**HS code :** 42 02 92 11 00

**Reference :** SC4

**GTIN code :** 3701133100281

**Dimensions :** L60 x H28 x l28 cm

**Capacity :** 47L

**Packing :** carton of 6 pieces

#### Trolley option for soft or semi-rigid organized bags

##### Features :

- 2 roulettes
- canne rétractable (hauteur de 95 à 100 cm)

**Empty unit weight :** 1,55 Kg.

**Color :** black

**HS code :** 39 26 90 97 90

**Reference :** TR

**GTIN code :** 3701133100335

**Dimensions :** L35 x H100 x Th. 30 cm

**Packing :** carton of 6 pieces

#### Accessory pocket

##### Features :

- pocket for storing helmet, visor, shoes, accessories,
- closure with a cord in a sheath,
- 2 attachment points on bottom part to make 2 shoulder straps

##### Material :

- PU coated polyester,
- cord in polyester 3,5 mm diameter.

**Empty unit weight :** 0,095 Kg.

**Color :** black

**HS code :** 42 02 92 98 90

**Reference :** SP4555,FC

**GTIN code :** 3701133102261

**Dimensions :** L45 x H55 cm

**Packing :** polybag of 10 pieces

## Professional storage solutions

Tools • PPE • Documents

Specially designed in **waterproof and easily washable** coated tarpaulin, our new “all-terrain” PPE bag is suitable for **outdoor and dirty environments**: construction sites, construction trades, etc.

### Features :

- 1 large compartment closed by U-shaped zip and 2 pullers,
- 2 carrying handles,
- 1 adjustable and removable shoulder strap with shoulder pad,
- 1 label holder outside opening with press stud (95 x 70 mm),
- 1 flat pocket closed by zip,
- 1 flat hanging pocket in the central compartment for documents,
- reflective strips SOLAS on 4 sides.

### Material :

- body in double sided polypropylene coated polypropylene 2 faces 100%recyclable,
- handles, shoulder strap and bindin in polypropylene weaving,
- nylon zip 8 mm.

**Empty unit weight** : 0,80 Kg.

**Color** : black

**HS code** : 42 02 92 98 90

**MADE IN FRANCE**

**Reference** : SC703232,SGU,CEP,AN,BD

**GTIN code** : 3701133102193

**Dimensions** : L45 x H55 cm

**Capacity** : 72L

**Packing** : carton of 6 pieces

## PPE BACKPACKS

### PPE backpacks with mat carrying straps

The PPE backpack makes work **safer** and empowers users. Carrying the bag on the back **reduces strain** and leaves the user's **hands free**.

### Features :

- 1 central compartment closed by flap and clasp,
- 1 adjustable gusset with cord inside sheath on the top,
- 1 flat pocket under the flap,
- 1 label holder on the flap,
- 2 lateral pouches with gusset,
- 1 front pocket with gusset,
- all above pouches closed by zip,
- 1 flat interior pocket for small documents or tablet,
- foamed lined back,
- 2 adjustable retaining straps with tightening buckle and Velcro below the bag to hold insulating mat or clothing...,
- 1 carrying handle,
- 2 adjustable shoulder straps with foam reinforcement.

### Material :

- body in PVC coated polyester,
- interior PU foam Th. 12 mm,
- reflective strips SOLAS on lateral pouches,
- binding in polypropylene weaving with reflective filament,
- cord in polypropylene 3,5mm diameter,
- handles in polypropylene weaving,
- nylon zip.

**Empty unit weight** : 0,75 Kg.

**Color** : black

**HS code** : 42 02 92 98 90

**Reference** : SD403523

**GTIN code** : 3701133100359

**Dimensions** : L40 x H35 x Th. 23 cm

**Packing** : carton of 6 pieces

**Capacity** : 32L

#### PPE backpack with integrated shoe pocket

##### Features :

- 1 central compartment closed by flap and clasp,
- 1 adjustable gusset with cord inside sheath on the top,
- 1 flat pouch under the flap,
- 1 label holder on the flap,
- 2 lateral pouches with gusset,
- 1 front pocket with gusset,
- 1 shoes compartment closed by zip,
- all pouches closed by zip,
- dos doublé de mousse,
- 4 protection feet,
- 1 carrying handle,,
- 2 foam reinforced shoulder strap.

##### Material :

- body in PVC coated polyester,
- interior foam in PU 12 mm thickness,
- reflective strips SOLAS on lateral pouches,
- binding in polypropylene weaving with reflective filaments,
- cord in polypropylene diameter 3,5mm,
- nylon zip 8 mm..

#### POCKETS AND BAGS FOR GLOVES AND INSULATING MATS

##### Pockets for insulated gloves

The insulated glove pockets allow you to store and **protect insulated gloves** without folding them. The fabric used is waterproof and durable. The reference RV224508,CE,PS,Gloves adds a color code for the class and allows the insertion of the manufacturer's bag required for storing the gloves

##### Features :

- closure by a flap and press stud at the front,
- At the back :
- carabiner and loop allowing attachment to a belt or harness,
- 1 label holder (outside opening).

##### Material :

- body in PVC coated polyester,
- press studs in injected polyamide,
- border and loop in polypropylene weaving.

**Empty unit weight :** 0,15 Kg.

**Color :** black

**HS code :** 42 02 92 98 90

**Reference :** RV184108,CE  
**GTIN code :** 3701133101738  
**Dimensions :** L18 x H41 x Th. 08 cm  
**Packing :** carton of 10 pieces

## Professional storage solutions

Tools • PPE • Documents

### Features :

At the front :

- magnetic closure,
- 1 label holder for class color label,

At the back :

- carabiner and loop allowing attachment to a belt or harness,
- 1 label holder outside opening.

### Material :

- body in PVC coated polamide (NOIR),
- magnets with stainless steel exterior,
- binding and strap in polypropylene weaving,
- reinforcement rod on top.

**Empty unit weight :** 0,20 Kg.

**Colors :** black/yellow or black/red

**HS code :** 42 02 92 98 90

**MADE IN FRANCE**

**Reference :** RV224508,2CE,PS

**GTIN codes :** 3701133102230 jaune

3701133102247 rouge

**Dimensions :** L22 x H45 x Th. 08 cm

**Packing :** carton of 10 pieces

### Bags for insulating mat

The reinforcements or semi-rigid structure, depending on the model, of our insulating mat carrier bags allow the mats to be **held securely** and **prevents them from folding**, thus preserving their properties and extending their lifespan. The full opening allows for easy insertion and removal of the mat. The completely closed storage **protects against shocks and damage** (UV, humidity). Lightweight, easy to install and clean. A **fixing kit** consisting of 2 straps with clasps is provided to easily attach and release the bag from the vehicle wall.

### Features :

- 1 central compartment closed by zip on the length,
- 2 reinforcement rods at the bottom to prevent the mat from folding,
- side reinforcements for vertical support,
- 2 drain holes in vertical position,
- 1 handle with pull cord on the side,
- 2 adjustable and removable shoulder straps for multiple carrying options: hand, shoulder or backpack,
- 2 attachment with clasps for vertical storage in vehicle,
- screw kit to install the bag in vehicle,
- 2 reflective strips SOLAS,
- 1 label holder to identify the mat class.

### Material :

- body in double sided PP coated polypropylene fabric 100% recyclable,
- lateral reinforcement in polyethylene 1.8 mm thickness,
- shoulder straps in polypropylene weaving,
- acrylic rods Ø 8 mm,
- clasps in injected polyamide,
- nylon zip Ø10 mm, injected plastic puller.

**Empty unit weight :** 0,70 Kg.

**Color :** black

**HS code :** 42 02 92 19 00

**MADE IN FRANCE**

### VEHICLE TOOL SUPPORT

The vehicle tool rack **optimizes storage and protects tools**, retaining their insulating properties.

Lightweight and sturdy, it's **easy to install above the workbench**.

**Reference :** EQ9249,33C  
**GTIN code :** 3701133102278  
**Dimensions :** L92 x H49 cm

#### Features :

- 1 large semi-rigid plate,
- 33 cartridge belts for insulated tools,
- Mounted on wooden vehicle supports with screws (not included).

#### Material :

- back in polyethylene plate 1.8 mm thickness (BLACK),
- cartridge belts in double sided PVC coated polyester (ORANGE),
- binding in polypropylene weaving.

**Unit weight :** 0,7 Kg.

**Color :** black/orange

**HS code :** 42 02 92 19 00

### EMPLOYEES' WELL-BEING AND HEALTH

#### Lunch box

The **isothermal « Lunch Box »** by Outils Océans is **made in France** in our factory. You can carry your meals (cans, bottle of water, cutlery, etc.) and keep them fresh at the same time, thanks to its compartment for cold packs and its insulating foam.

**Practical and safe**, it's easy to wash. A virucide membrane can be added on request.

Other colors and logo printing options are also available. A real asset for your employer brand or for your clients and your CSR commitments.

#### Features :

- closure by flap, zip on 3 sides and 2 zipper pullers,
- 1 transparent pocket on the flap, outside opening (dim. ext. 95 x 70 mm et dim. int. 75 x 50 mm),
- 1 carrying handle,
- 1 pocket inside under the flap for cold pack (not provided).

#### Material :

- body in PP coated (1 side for gray and 2 sides for white, black, blue) polypropylene fabric,
- inner lining in PEVA (white),
- insulating foam in the lining 6 mm thickness,
- inside pocket in transparent PVC with reinforcement in double sided PVC coated polyester,
- peripheral binding in polypropylene weaving (black).

**Poids unitaire à vide :** 0,23 Kg
