STANDARD PRODUCTS

OPEN ROPE BAGS

The open rope bags have been developed to stow lines (halyards, sheets...) flaked and ready to run. Their installation is quick and easy.

They can be removed when the boat is at the dock:

- for a better protection against UVs
- to facilitate cleaning and winter storage

Outils Oceans rope bags have been developed in collaboration with racers and have been proven to be solid and long lasting.

T403110	L40 x H31 x E10 cm

Tidy up - Protect

CLOSED ROPE BAGS

The closed rope bags have been developed to stow lines coiled.

Once the line is coiled, pull the front of the rope bag to open, slide the coil inside. The rope bag closes automatically.

No matter what the conditions are the line is always there.

Pull, stow and let go. It's shut!

All the Outils Ocean rope bags have our quick fixation system, which allows for easy installation and removal.

WINCH HANDLE HOLDERS

The Outils Oceans winch handle holders have one or two inclined cut-outs on the upper part to allow the winch handle to always be arranged against the boat. The winch handle holder with 2 cut-outs is universal, allowing the winch handle to be stored in all cases, to the left or to the right. The pair of winch handle holders, clockwise rotation (left) and anticlockwise rotation (right), permit you to choose the direction the winch handle will be stored, to the right or to the left, in respect to winch or a bulk head.

BOTTLE HOLDER

Outils Oceans' water bottle holder has been designed in collaboration with professional offshore sailors. Placed close to the helm or in the cockpit, you always have your bottle at hand. The bottle holder is adjusted to the form of a bottle and holds the bottle regardless of the heel of the boat. Light and durable, the materials have been selected to deal with humidity, salt water and UV.

Réf.	Dimensions

RACING PRODUCTS: ROPE BAGS

Racing by Outils Oceans has been created to answer the call for lightweight sturdy rope bags and accessories. With a new design and material, our Racing rope bags are on average 20% lighter. They retain their shape and don't deform.

Solid and durable, they have been tested on the new Ultime trimarans and IMOCA Open 60s. Stylish new look in light grey and our reliable quick fixation system to insure easy installation and removal.

STORAGE LOCKERS

The Outils Oceans storage lockers, with either one or two compartments and clear windows, are easy to install. The new locker with 2 compartments is modular and can be fixed one to another either vertically or horizontally to create your own custom storage lockers. Everything is organized and easy to find: one side for little things (suntan lotion, sunglasses, keys...), one side for larger objects (water bottle, A4 documents...)

Réf.	Dimensions

THE 3 COMPARTMENTS SOFT STORAGE LOCKER

NEW

The 3 compartments soft storage locker has been created and adapted for various uses whether you are on a sailboat, a semi-rigid, a fishing trip or simply in a trunk.

Practical thanks to its two flap pockets on the upper part and a long pocket without gusset on the lower part allowing to store any kind of material (rope, fin, gaff, oar, fishing material...).

Easily removable, thanks to its hooking system by mushroom or by lashing with the help of available buckles. The flexible equipment can follow you in all your movements with all your material, ready to be used.

Line up several of them and easily modulate your storage.

GUARD LINE PROTECTIONS

Guard line protection received specific arrangements to increase its lifespan and its ability to secure :

- Inner spiral tube to protect from potential cuts,
- High density foam,
- Closing with lacing system on both sides.

Réf. Dimensions
HP1003 L100 x D3,5 cm

MOORING LINE PROTECTIONS

For a good protection against chafing, an EVA foam lining is sewn inside the PVC coated polyester on both sides. It also allows, when carefully wrapped up and tightened up with velcro strips all along, to stay in position.

Réf. Dimensions

TURNBUCKLE PROTECTIONS

In addition to aesthetic aspect brought, your turnbuckle will be protected from the salty winds of sea and your sheet from your piston pin. It sets up with a strap that you set under the chainplate and a velcro strap all along the protection.

Réf. Dimensions
HP1745 L17 x H45 cm

MAGIC-MÂT®

THE MAST LADDER : THE EASIEST WAY TO GO ALOFT BY YOURSELF

The Magic Mast ladder is the easiest way to go aloft by yourself. The alternating steps and the «platform» at the top, reinforced with polyethylene, provides comfort and safety.

The Magic Mast ladder is available in length of 3,7 or 9 meters and comes in a large bag. It is designed to be extended (2,3 and 7 meters) and thus adapts to the height of your mast.

You can do all the work on your mast, change lights, work on spreaders, set a weathervane, with the additional equipment : work harness and fall protection.

TIPS FOR USING MAGIC-MÂT®

Attach the mainsail, spinnaker or genoa halyard to the eye at the top of the mast ladder (the side where there are two steps facing). Hoist the halyard with the mast ladder. Remove the twists.

Attach the eye at the bottom to the gooseneck or a fitting on the mast. Tension the halyard. To climb :

- hands around the mast,
- feet against the mast, push your body against your feet, once to the right and once to the left and so on. This requires a slight rotation of the body around the mast.

When the right foot pushes on the mast, you're on the right side of the mast, when the left foot pushes on the mast you're on the left side of the mast.

At the masthead, wedge your feet in the steps, your back is supported by the harness, and both your hands are free to work. Your arms do not get tired as you're above your «work».

Magic-Mât includes two other accessories that are essential to you:

- Anti-Fall: This tool prevent you from dropping more than 80 cm if you fall while you are climbing your mast
- Harness: This tool allows you to climb your mast safely by sitting in the harness and rest if you feel tired from climbing up

Flash this code to see the video

To choose the combination of mast ladder and extension necessary for your boat, you need the distance between the boom and the mast head (this distance corresponds to the «P»)

P= 30 m = 1 mast ladder of 9 m + 3 extensions of 7 m
P= 26 m = 1 mast ladder of 9 m + 2 extensions of 7 m + 1 extension of 3 m
P= 25 m = 1 mast ladder of 9 m + 2 extensions of 7 m + 1 extension of 2 m
P= 24 m = 1 mast ladder of 9 m + 1 extension of 7 m + 2 extensions of 3 m + 1 extension of 2 m
P= 23 m = 1 mast ladder of 9 m + 2 extensions of 7 m
P= 22 m = 1 mast ladder of 9 m + 1 extension of 7 m + 2 extensions of 3 m
P= 21 m = 1 mast ladder of 9 m + 1 extension of 7 m + 1 extension of 3 m + 1 extension of 2 m
P= 20 m = 1 mast ladder of 9 m + 1 extension of 7 m + 2 extensions of 2 m
P= 19 m = 1 mast ladder of 9 m + 1 extension of 7 m + 1 extension of 3 m
P= 18 m = 1 mast ladder of 9 m + 1 extension of 7 m + 1 extension of 2 m

P= 17 m = 1 mast ladder of 7 m + 1 extension of 7 m + 1 extension of 3 m
P= 16 m = 1 mast ladder of 9 m + 1 extension of 7 m
P= 15 m = 1 mast ladder of 9 m + 2 extensions of 3 m
P= 14 m = 1 mast ladder of 9 m + 1 extension of 3 m + 1 extension 2 m
P= 13 m = 1 mast ladder of 9 m + 2 extensions of 2 m
P= 12 m = 1 mast ladder of 9 m + 1 extension of 3 m
P= 11 m = 1 mast ladder of 9 m + 1 extension of 2 m
P= 10 m = 1 mast ladder of 7 m + 1 extension of 3 m
P= 9 m = 1 mast ladder of 9 m
P= 8 m = 1 mast ladder of 3 m + 1 extension of 3 m + 1 extension 2 m

MAGIC-REBOARD®

THE EMERGENCY LADDER : THE EASIEST WAY TO REBOARD BY YOURSELF

The Magic-Reboard is a rescue reboarding Ladder, easy to install and easy to use. It has been designed to reboard unaided in complete security.

Ref. ESR27350,11E,TA

Ref. ES27295,9E,TA

ORIGINAL MODEL

**DISCOVER OUR NEW
MODELS FOR MORE
SECURITY AND VISIBILITY:**

EMERGENCY LADDER
MAGIC-REBOARD®

- ▶ A new reflective tape (SOLAS Norm)
- ▶ The rope with reflective thread
- ▶ and directly attached to the ladder to create an adequate lifeline allowing to hang on and get closer to the ladder when the boat is moving.

TIPS FOR USING MAGIC-REBOARD®

The small rope allows the ladder to be opened unaided from the water. The ladder unfolds automatically. The length of the ladder is adapted for most boats on the market today. The steps of the ladder have been specially designed to sink into the water. In order to easily reboard there should be 4 steps in the water. Reboarding is facilitated with wide steps to allow both feet on the steps at the same time and a reasonable distance between the steps to make climbing easier.

In conformity with the Norm EN/ISO 15085 and the European Directive 2013/53/EU, it adapts to all types

and sizes of boats. Easy to install, cow hitch the reboarding ladder around the stern rail.

Magic Reboard is available in two models :

- ▶ Ref.ES27295,9E,TA : 9 flexible and consolidated steps
- ▶ Ref.ESR27350,11E,TA : 11 rigid steps

EMERGENCY LADDER MAGIC-REBOARD®

Pontoon

Référence : ESR27190,6E,2BC,2O

Dimensions :

Box dimensions : L41 x H49 x E10,5 cm

Ladder dimensions : L27 x H190 cm

Number of steps : 6

Color : Orange

PONTON EMERGENCY LADDER

Designed for ascent on pontoons alone and in complete safety, its use is simple and functional. Its positioning is easily noticed: for users from the water thanks to the orange holster with retroreflective strip and for people on the pontoon thanks to the orange sign with retroreflective border.

CONFORMITY & ADAPTABILITY

The pontoon emergency ladder is based on the same design as the Magic-Reboard emergency ladder. It can be adapted to different types of pontoon.

SIMPLICITY AND RELIABILITY

Thanks to the simplicity of its design and assembly, the pontoon escape ladder is simple and safe to operate:

- The cord is activated from the water and triggers the deployment of the ladder,
- Fully deployed, at least 4 rungs plunge into the water (1.20m),
- Ideally placed in front of a pontoon float,
- The wide and rigid rungs facilitate the ascent,
- The pontoon is free of any mooring lines, electric cables, etc.

BENEFICIAL ALERT BEACON® - My link to life

SAFETY - SURVIVAL - PSYCHOLOGICAL SUPPORT EQUIPEMENTS

AN ACCIDENT HAPPENS TO ME - WHAT IS MY CHOICE ?

BAB'So is a system used to improve **identification of a person in distress**.
It works where others do not (no network, batteries out, etc.).

Compact and lightweight (abt. 80 grams), **reusable**, it activates in **less than 10 seconds** and increases the **visibility of about 150m**.

Technical **AND** psychological assistance, the BAB'So Kit, source of hope, is your link to life.

BAB'SO'S ASSETS

1. Facilitate searches of a person in distress by being seen, heard and recognized.

(The trackers geolocate but do not allow to be seen!)

2. **Reliable** thanks to its technology, **simple** in its operation, **compact & versatile**

3. **Be visible** in all circumstances day and night

(ISO Standard & emission of about 16 hours of light CE)

4. Personal and medical **ID strips**

5. **Be heard**: whistle 60 dB

6. A 150cm connecting lanyard, resistant to 150kg of traction. to **hang, repair, being bind** to an object or person

7. **Feel a presence**, substance the imagination, offer solutions

8. Bring **hope** and keep **link to life**

9. **Save time** saving more lives

10. And even a **emergency splint** and more, it's up to you to discover ...

STACKING BAGS

BEST OF THE CASE AND BAG EXCLUSIVE TO OUTILS Océans

The «Matos» is an exclusive Outils Oceans, designed in collaboration with the greatest skippers, for stacking gear. The best of a case and a bag, it is solid and structured to carry heavy equipment (anchor, tools, deck hardware, jerry cans...). Lightweight and foldable, it saves space by compressing to limit the volume used. The design and materials allow the bag to be loaded without limit, except of course that the user must carry! 2 half-flaps open with one hand for direct access to the content even in a small space. There is a clear pocket to list the contents in order to find everything easily. The small cords allow the bag to be compressed or carried in different ways. The optional interior bags allow for compartmentalizing.

Réf.	Dimensions
Matos60	L60 x H28 x E28 cm
PO282428	L28 x H24 x E28 cm
Matos70	L70 x H32 x E32 cm

TOOL BAGS

Since the beginning, Outils Oceans designs and manufactures tool bags and cases dedicated to sailors. Made from sturdy materials they withstand extreme conditions. Our concept is based on rigid frame with shape memory, unbreakable. Our tool bags are resistant to attacks such as acids, hydrocarbons, moisture, corrosion, extreme variations in temperature ... and are easily washable.

From minor/emergency jobs bags (COT, CO1, CO10) through versatile tool bags (CO2, CO3) to large tool stowage bags for repair work (CO5 and SD324516), our range cover all your needs.
